

ShowerTravel

This folding chair stows away in a convenient carry case. It is very light, weighing in at only 25 lbs. and is constructed of water-resistant materials which make it durable, sanitary, and easy to clean. A commode and shower chair designed with travel in mind. It opens up in three easy steps and has collapsible arm rests. Rear suspension makes for an easier experience over short 1" thresholds. Anti tip forward wheels prevent the user from ever tipping forward. Rear suspension prevents the user from ever tipping backwards. There are also hand brakes which keep it locked in place. These highlighted features make the WheelAble by ShowerTravel a safe and sturdy shower solution. This comfortable and compact chair makes it the ideal companion in tight spaces.

This product covers the high demand for a portable shower chair for use on the go. Hotel rooms are now easy to maneuver and all adventures become a possibility. There are additional accessories which include an attachable commode bucket, padded overlay, and a convenient travel bag.
